**B. Tech** – Computer Science & Engineering  
**ITM University**, Gwalior M.P.

2018

---

## Work Experience

**BDO India, Noida | Associate as Power BI Developer | Jan 2022 – Present**

<b>Project Title</b>	<b>Azure Costs Dashboard</b>
<b>Role</b>	Power BI Developer
<b>Environment</b>	Microsoft Azure, Power BI, Microsoft Fabric, Excel
<b>Brief Description</b>	The report monitors cloud spending, optimize its efficiency and increase BDO accountability both at Global level and Firm level. BDO has costs for each month for different budget codes based on their resource group and subscription and reservations which needs to be allocated and mapped the unallocated costs. These detailed insights of Azure costs management help finance team to allocate the costs in their ledger.
<b>Project Title</b>	<b>AQIs Dashboard</b>
<b>Role</b>	Power BI Developer
<b>Environment</b>	Power BI, Excel
<b>Brief Description</b>	As per the standard, BDO Firm are required to establish the quality objective specified by any additional quality objective considered necessary by the BDO Firm to achieve the objectives of the system of quality management. The report shows what is Audit Quality Indicators for all the member firms, we have different responses at each staff level annually. The main goal is to help audit quality across all member firms and global office level.
<b>Project Title</b>	<b>Firm Analytics</b>
<b>Role</b>	Power BI Developer
<b>Environment</b>	Power BI, Microsoft D365, SQL Server
<b>Brief Description</b>	The report shows the analysis of ERP data, basically costing on various KPIs and it's an existing report which requires updating of data modelling, modifying the DAX queries as per the Roles for Row Level Security (RLS) as data migrated from Osource, an ERP tool to D365. So, need to make some changes in transformation accordingly.

---

## Accomplishments
