Kumar

POWER BI DEVELOPER

PHONE (+91) | 8802388963, 7982062661

EMAIL |
vijaysinghjadon154@gmail.com

LOCATION | Noida, INDIA

EXPERIENCE | 4 Years 1 Month

Key Skills

- Power BI: Advanced Skills
 - In Creating Dashboards Reports And Data Models.
- DAX: Proficient In Writing
 - Complex DAX Queries And Measures.
- Data Integration:
 - Experience With Integrating
 - Data From SQL Server Excel SharePoint And Other Data Sources.
- SQL: Strong Understanding
 - Of SQL For Querying And Managing Data.
- Data Analysis: Skilled In
 - Analyzing Data To Derive Actionable Insights.
- Excel: Advanced Excel Skills
 - Including PivotTables VLOOKUP And Data Analysis.
- ETL Processes: Knowledge
 - Of ETL Processes And Data Warehousing Concepts.

Certification

Profile Summary

Detail-oriented and results-driven Power BI Developer with 3 years of experience in creating and managing interactive dashboards and reports. Seeking to leverage my expertise in data visualization and analytical skills to drive business insights and support decision-making processes in a dynamic organization.

Work Experience

Power BI Developer

SymphonyAI

12/2020 - Present

- Analyzed complex datasets to identify trends, patterns, and outliers that informed business strategies.
- Provided technical support and troubleshooting for Power BI-related issues.
- Developed and maintained interactive Power BI dashboards and reports to support business operations and strategic decision-making.
- Collaborated with cross-functional teams to gather requirements and translate them into technical solutions using Power BI.
- Optimized and improved existing reports by implementing advanced DAX functions and measures.
- Integrated multiple data sources including SQL Server, Excel, and SharePoint into Power BI for comprehensive reporting.
- Conducted data analysis and provided

- Powerful Reports And Dashboards With Microsoft Power BI

- Advance Excel Course
- SQL
- Data Analysis Using Excel
- CCC
- SQL Training

Languages

Grade - 70-75%

Projects

Customer Segmentation Analysis

6 Months

- In this project, I applied advanced analytical techniques to segment a customer base for targeted marketing strategies. Leveraging SQL, I extracted and processed large datasets to identify key customer attributes and behaviors. Utilizing Power-BI, I visualized these insights to uncover patterns and trends. Excel was employed for in-depth analysis and to create comprehensive reports for stakeholders. This project not only enhanced my proficiency in data analytics tools but also honed my ability to derive actionable insights for business growth through segmentation analysis.
- Tools Utilized: SQL, Power BI, Excel

Sales Performance Dashboard

12 Months

- **Project Overview:** To analyze large datasets to identify trends and patterns, present findings through visualizations, collaborate with team members for informed business decisions, identify and document bugs and errors, prioritize and coordinate quality testing activities, and support computer vision efforts by marking elements in product images.
- **Project Phases and Tasks:**
 - Define project scope and objectives
 - Deliverable: Project Charter
 - Assemble project team and assign roles
 - Deliverable: Team Roles and Responsibilities Document
- **Data Analysis:**
 - Collect and clean large datasets
 - Deliverable: Cleaned Datasets
 - Analyze datasets to identify trends and patterns
 - Tools: SQL, Excel, Power-BI
 - Deliverable: Analysis Report

- **Present findings through visualizations:**
- Tools: Power BI, Excel
- Deliverable: Visualization Dashboard
- **Collaboration for Business Decisions:**
- Organize team meetings to discuss findings
- Deliverable: Meeting Agendas and Minutes
- Provide data-driven for business decisions
